Profile

From a scientific computing and mechanical engineering background, I have 2 years of research experience in machine learning that I applied to manufacturing and robotics engineering. Passionate about data science, I regularly participate in competitions, attend workshops and conferences and follow online courses in machine learning / data science.

Work Experience

2017 – Present **Marie Curie research fellow**, *University College Dublin*, Ireland.
- Anomaly detection and condition monitoring of a manufacturing process using time series and machine learning.
- Robotic trajectory planning using a reinforcement learning approach.

2016 – 2017 **Postdoctoral research fellow**, *University College Dublin*, Ireland.
Numerical modelling and evolutionary and topology optimisation of composite materials.

2012 – 2015 **Teaching assistant**, *University of Exeter*, *UK*.
Solid mechanics, computational engineering, Computer-Aided Design.

2011 (6 months) **Project manager assistant – internship**, *Airbus*, Toulouse, France.

Education

2016 – 2019 **Online Courses**.
- Machine learning – Coursera
  Supervised learning (regression and classification), neural networks, anomaly detection, unsupervised learning, dimensionality reduction, regularisation.
- Practical Reinforcement learning – Coursera
  Model-free reinforcement learning, policy-based methods.
- Introduction to data analysis – Udacity
  Exploratory data analysis, data wrangling, data visualisation, Pandas, Scikit-learn.

2012 – 2016 **PhD Mechanical Engineering**, *University of Exeter*, UK.
Numerical modelling and computational optimisation of vibrating aerospace structures.

2009 – 2012 **'Diplôme d'ingénieur' – MEng Mechanical Engineering**, *ENSMM*, France.
National graduate engineering school in mechanics and microtechnologies.

Computer Skills

Programming	Python, Matlab, C/C++, PHP, SQL
Machine learning	Pandas, Scikit-learn, Keras, TensorFlow, Pytorch, Cuda
Others	Git, Linux, Microsoft Office, LaTeX

Miscellaneous

Languages	**English**: Full proficiency, **French**: Native speaker, **Spanish**: Conversational
Interests	Robotics (Raspberry Pi and Arduino), data science competitions (Kaggle)
Blog	I maintain a machine learning blog – www.datamachinist.com
Hobbies	Competitive badminton (15 years), acoustic and electric guitar, travelling, hiking, Geocaching.
